OMPA STATEWIDE SURVEYS STARTING

Ponca City Energy's wholesale power supplier, the Oklahoma Municipal Power Authority, will be conducting a phone survey of residential electric customers beginning in October. Phone calls may appear as being from Glastonbury, Connecticut or from GreatBlue Research. These surveys are not sales calls, and are used to help OMPA gauge customer satisfaction rates, as well as interest in programs and emerging technologies.

Contact: Phil Johnston, General Manager Electric Utilities, 580-763-8041 or Ryan Piersol, Oklahoma Municipal Power Authority, 405-359-2518.

**EMERGENCY MANAGEMENT NEWS**  
***Ponca City Emergency Management***

GREAT SHAKEOUT EARTHQUAKE DRILL IS THURSDAY, OCTOBER 17, 2019

Across the Nation communities practice earthquake response during the Great Shakeout in order to be prepared when a serious earthquake occurs. Be aware that some earthquakes are actually foreshocks and a larger earthquake might occur. Minimize your movements to a few steps to a nearby safe place and if you are indoors, stay there until the shaking has stopped and you are sure exiting is safe.

**If Indoors:**

- DROP to the ground; take COVER by getting under a sturdy table or other piece of furniture; and HOLD ON until the shaking stops. If there isn't a table or desk near you, cover your face and head with your arms and crouch in an inside corner of the building.
- Stay away from glass, windows, outside doors and walls, and anything that could fall, such as lighting fixtures or furniture.
- Stay in bed if you are there when the earthquake strikes. Hold on and protect your head with a pillow. If your bed is under a heavy light fixture that could fall, move to the nearest safe place.
- Use a doorway for shelter only if it is in close proximity to you and if you know it is a strongly supported, loadbearing doorway.
- Stay inside until the shaking stops and it is safe to go outside. Research has shown that most injuries occur when people inside buildings attempt to move to a different location inside the building or try to leave.
- Be aware that the electricity may go out or the sprinkler systems or fire alarms may turn on.
- DO NOT use elevators.

**If Outdoors:**

- Stay there, but move away from buildings, streetlights, and utility wires.
- Once in the open, stay there until the shaking stops. The greatest danger exists directly outside buildings, at exits and alongside exterior walls. Most earthquake-related casualties result from collapsing walls, flying glass, and falling objects.

**If In A Moving Vehicle:**

- Stop as quickly as safety permits and stay in the vehicle. Avoid stopping near or under buildings, trees, overpasses, and utility wires.
- Proceed cautiously once the earthquake has stopped. Avoid roads, bridges, or ramps that might have been damaged by the earthquake.

**If Trapped Under Debris:**

- Do not light matches or lighters.
- Do not move about or kick up dust, and cover your mouth with a handkerchief or clothing.
- Tap on a pipe or wall so rescuers can locate you. Shout only as a last resort as it can cause you to inhale dangerous amounts of dust.
